INTRODUCTION

The Eaton County Road Commission (ECRC) was established in 1912 by resolution of the County Board of Supervisors and charged by law with the duty “to keep in reasonable repair, so that they shall be reasonably safe and convenient for public travel, all county roads, bridges, and culverts that are under their care and control, and which are open to public travel.” State law also requires the Road Commission to permit and regulate certain activities in road right-of-way, authorizes the Road Commission to set reasonable standards for adopting new roads into the county system and to enforce state restrictions on vehicle size and weight on county roads.

Since its inception, the Eaton County Road system has grown to include 391 miles that are now designated as Primary roads. Passage of the McNitt Act in 1931 abolished the old township road system and transferred over 650 miles of township roads to the Road Commission. These old township roads, together with over 120 miles of subdivision streets built since that time, make up what is now the 781 miles system of County Local roads. Overall, 57% of all Eaton County roads are paved, with the remaining 500 miles being gravel surfaced but otherwise unimproved.

Routine maintenance by Road Commission workers is organized into four service areas. Crews working in the southeast and southwest areas of the County operate out of the main garage in Charlotte. The northwest quarter of the County is served by the crew based in Vermontville, and the northeast area is covered by workers from our garage in Delta Township.

While the Road Commission uses its own forces for emergency and minor repairs, and most of the routine maintenance of snow removal, gravel blading and seal coating, all construction and most other heavy maintenance work is performed by private contractors selected through competitive bids. Many other routine maintenance operations that require specialized equipment such as mowing, pavement marking and street sweeping are also provided by private firms.

While the Road Commission’s first priority is public safety on all county roads, we continue to work towards keeping the existing good roads in Eaton County in good condition, rather than deferring needed maintenance in order to pay for the construction of new paved roads.

Recognizing the need for long-range planning for improvements on the County road system, the Road Commission participates in the Tri-County Regional Planning Commission planning process, and actively competes for Federal and State grant funds and other local government funds for specific improvement projects whenever possible.

The Eaton County Road Commission serves all people of the county of Eaton, including minority populations, low-income populations, the elderly, persons with disabilities, and those who traverse Eaton County. The Road Commission recognizes its responsibility to provide fairness and equity in all of its programs, services, and activities, and that it must abide by and enforce federal and state civil rights legislation.

Title VI of the Civil Rights Act of 1964, is the overarching civil rights law which prohibits discrimination based on race, color, or national origin, in any program, service or activity that receives federal assistance. Specifically, Title VI assures that, “No person in the United States

shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance.” Title VI has been broadened by related statutes, regulations and executive orders. Discrimination based on sex is prohibited by Section 324 of the Federal-Aid Highway Act, which is the enabling legislation of the Federal Highway Administration (FHWA). The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibit unfair and inequitable treatment of persons as a result of projects which are undertaken with Federal financial assistance. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of federal-aid recipients and contractors whether those programs and activities are federally funded or not.

In addition to statutory authorities, Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” signed in February of 1994, requires federal agencies to achieve Environmental Justice as part of its mission by identifying disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. Environmental Justice initiatives are accomplished by involving the potentially affected public in the development of transportation projects that fit within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice. Also, Executive Order 13166, “Improving Access to Services for Persons with Limited English Proficiency (LEP),” provides that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives Federal financial assistance.

As a recipient of federal financial assistance, the Eaton County Road Commission must provide access to individuals with limited ability to speak, write, or understand the English language. ECRC will not restrict an individual in any way from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under its programs or projects. Individuals may not be subjected to criteria or methods of administration which cause adverse impact because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program because of race, color or national origin. Therefore, the primary goals and objectives of the Eaton County Road Commission’s Title VI Program are:

1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI of the Civil Rights Act of 1964 and related regulations and directives;
2. To ensure that people affected by the Road Commission’s programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability;
3. To prevent discrimination in the Road Commission’s programs and activities, whether those programs and activities are federally funded or not;

4. To establish procedures for identifying impacts in any program, service, or activity that may create illegal adverse discrimination on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, and all interested persons and affected Title VI populations;
5. To establish procedures to annually review Title VI compliance within specific program areas within the Road Commission;
6. To set forth procedures for filing and processing complaints by persons who believe they have been subjected to illegal discrimination under Title VI in the Road Commission's services, programs or activities.

As a sub-recipient of federal transportation funds, the Eaton County Road Commission must comply with federal and state laws, and related statutes, to ensure equal access and opportunity to all persons, with respect to transportation services, facilities, activities, and programs, without regard to race, color, national origin, sex, socio-economic status, or geographical location. Every effort will be made to prevent discrimination in any program or activity, whether those programs and activities are federally funded or not, as guaranteed by the Civil Rights Restoration Act of 1987.

The Eaton County Road Commission shall also ensure that their sub-recipients adhere to state and federal law and include in all written agreements or contracts, assurances that the sub-recipient must comply with Title VI and other related statutes. The Eaton County Road Commission, as a sub-recipient who distributes federal transportation funds, shall monitor their sub-recipients for voluntary compliance with Title VI. In the event that non-compliance is discovered, the ECRC will make a good faith effort to ensure that the sub-recipient corrects any deficiencies arising out of complaints related to Title VI; and that sub-recipients will proactively gauge the impacts of any program or activity on minority populations and low-income populations, the elderly, persons with disabilities, all interested persons and affected Title VI populations.

Discrimination under Title VI

There are two types of illegal discrimination prohibited under Title VI and its related statutes. One type of discrimination which may or may not be intentional is “disparate treatment.” Disparate treatment is defined as treating similarly situated persons differently because of their race, color, national origin, sex, disability, or age.

The second type of illegal discrimination is “disparate impact.” Disparate impact discrimination occurs when a “neutral procedure or practice” results in fewer services or benefits, or inferior services or benefits, to members of a protected group. With disparate impact, the focus is on the consequences of a decision, policy, or practice rather than the intent.

The Eaton County Road Commission’s efforts to prevent such discrimination must address, but not be limited to, a program’s impacts, access, benefits, participation, treatment, services, contracting opportunities, training, investigation of complaints, allocation of funds, prioritization of projects, and the overarching functions of planning, project development and delivery, right-of-way, construction, and research.

The Eaton County Road Commission has developed this Title VI Plan to assure that services, programs, and activities of ECRC are offered, conducted, and administered fairly, without regard to race, color, national origin, sex, age, or disability of the participants or beneficiaries of federally funded programs, services, or activities (see Title VI Assurances).

**EATON COUNTY ROAD COMMISSION
NON-DISCRIMINATION POLICY STATEMENT**

The Eaton County Road Commission reaffirms its policy to allow all individuals the opportunity to participate in federal financially assisted services and adopts the following provision:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” In applying this policy, ECRC and its sub-recipients of federal funds shall not:

1. Deny any individual with any service, opportunity, or other benefit for which such individual is otherwise qualified;
2. Provide any individual with any service, or other benefit, which is inferior (in quantity or quality) to, or which is provided in a different manner from that which is provided to others;
3. Subject any individual to segregated or disparate treatment in any manner related to such individual’s receipt of services or benefits;
4. Restrict an individual in any way from the enjoyment of services, facilities or any other advantage, privilege or other benefit provided to others;
5. Adopt or use methods of administration, which would limit participation by any group of recipients or subject any individual to discrimination;
6. Address any individual in a manner that denotes inferiority because of race, color, or national origin;
7. Permit discriminatory activity in a facility built in whole or in part with federal funds;
8. Deny any segment of the population the opportunity to participate in the operations of a planning or advisory body that is an integral part of a federally funded program;
9. Fail to provide information in a language other than English to potential or actual beneficiaries who are of limited English speaking ability, when requested and as appropriate;
10. Subject an individual to discriminatory employment practices under any federally funded program whose objective is to provide employment;
11. Locate a facility in any way which would limit or impede access to a federally-funded service or benefit.

The Eaton County Road Commission will actively pursue the prevention of any Title VI deficiencies or violations and will take the necessary steps to ensure compliance. If irregularities occur in the administration of the program's operation, procedures will be promptly implemented to resolve Title VI issues all within a period not to exceed 90 days.

The Eaton County Road Commission designates its Director of Finance as the Title VI Coordinator. The Title VI Coordinator will be responsible for initiating and monitoring Title VI activities and other required matters, ensuring that the Eaton County Road Commission complies with the Title VI regulations and pursues prevention of Title VI deficiencies or violations. ADMINISTRATION – GENERAL

The Eaton County Road Commission designates its Patricia M. Loosemore, Finance Director as the Title VI Coordinator (hereinafter referred to as the “Title VI Coordinator”). The Title VI Coordinator shall have lead responsibility for coordinating the administration of the Title VI and related statutes, programs, plans, and assurances.

Complaints: If any individual believes that he/she or any other program beneficiaries have been the object of unequal treatment or discrimination as to the receipt of benefits and/or service, or on the grounds of race, color, national origin (including Limited English Proficiency), sex, age or disability, he/she may exercise his/her right to file a complaint with the Eaton County Road Commission. Complaints may be filed with the Title VI Coordinator. Every effort will be made to resolve complaints informally at the lowest level.

Data Collection: Statistical data on race, color, national origin, English language ability and sex of participants in and beneficiaries of ECRC programs; e.g., impacted citizens and affected communities will be gathered and maintained by ECRC. The gathering procedures will be reviewed annually to ensure sufficiency of the data in meeting the requirements of the Title VI program.

Program Reviews: Special emphasis program reviews will be conducted based on the annual summary of Title VI activities, accomplishments, and problems. The reviews will be conducted by the Title VI Coordinator to assure effectiveness in their compliance of Title VI provisions. The Title VI Coordinator will coordinate efforts to ensure the equal participation in all their programs and activities at all levels. ECRC does not have any special emphasis programs at this time.

Title VI Reviews on Sub-Recipients: Title VI compliance reviews will be conducted annually by the Title VI Coordinator. Priority for conducting reviews will be given to those recipients of federal (U.S. Department of Transportation) funds with the greatest potential of impact to those groups covered by the Act. The reviews will entail examination of the recipients’ adherence to all Title VI requirements. The status of each review will be reported in the annual update and reported to relevant U.S. Department of Transportation (USDOT) modes upon request.

Annual Reporting Form: The Title VI Coordinator will be responsible for coordination, compilation, and submission of the annual reporting form data to the Michigan Department of Transportation (MDOT), Civil Rights Program Unit via the Sub-Recipient Annual Certification Form (MDOT form #0179) by October 5th.

Title VI Plan Updates: If updated, a copy of Title VI Plan will be submitted to the MDOT, Civil Rights Program Unit, as soon as the update has been completed, or as soon as practicable, and no later than 30 days if significant changes are made.

Public Dissemination: ECRC will disseminate Title VI Program information to ECRC employees and to the general public. Title VI Program information will be submitted to sub-recipients, contractors and beneficiaries. Public dissemination will include inclusions of Title VI

language in contracts and publishing the Title VI Plan within 90 days of approval on the Eaton County Road Commission's website, at <http://www.eatoncountyroad.com>.

Remedial Action: ECRC, through the Title VI Coordinator, will actively pursue the prevention of Title VI deficiencies and violations and will take the necessary steps to ensure compliance with all program administrative requirements. When deficiencies are found, procedures will be promptly implemented to correct the deficiencies and to put in writing the corrective action(s). The period to determine corrective action(s) and put it/them in writing to effect compliance may not exceed 90 days from the date the deficiencies are found.

LIMITED ENGLISH PROFICIENCY (LEP)

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, to clarify Title VI of the Civil Rights Act of 1964. It had as its purpose, to ensure accessibility to programs and services to otherwise eligible persons who are not proficient in the English language.

This executive order stated that individuals who do not speak English well and who have a limited ability to read, write and speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter. These individuals are referred to as being limited in their ability to speak, read, write, or understand English, hence the designation, “LEP,” or Limited English Proficient. The Executive Order states that:

“Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities.”

Not only are all federal agencies required to develop LEP plans as a condition of receiving federal financial assistance, but recipients must comply with Title VI and LEP guidelines of the federal agency from which funds are provided as well.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies to nonprofits and organizations. Title VI covers a recipient’s entire program or activity. This means all parts of a recipient’s operations are covered, even if only one part of a recipient’s organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this Executive Order.

The Eaton County Road Commission receives funds from the US Department of Transportation via the Federal Highway Administration.

ENVIRONMENTAL JUSTICE (EJ)

Compliance with Title VI includes ensuring that no minority or low-income population suffers “disproportionately high and adverse human health or environmental effect” due to any “programs, policies and activities” undertaken by any agency receiving federal funds. This obligation will be met by the Eaton County Road Commission in the following ways:

- When planning specific programs or projects, identifying those populations that will be affected by a given program or project.
- If a disproportionate effect is anticipated, following mitigation procedures.
- If mitigation options do not sufficiently eliminate the disproportionate effect, discussing and, if necessary, implementing reasonable alternatives.

Disproportionate effects are those effects which are appreciably more severe for one group or predominantly borne by a single group. ECRC will use U.S. Census data to identify low income and minority populations.

Where a project impacts a small number or area of low income or minority populations, ECRC will document that:

- Other reasonable alternatives were evaluated and were eliminated for reasons such as the alternatives impacted a far greater number of people or did greater harm to the environment; etc.
- The project’s impact is unavoidable;
- The benefits of the project far out-weigh the overall impacts; and
- Mitigation measures are being taken to reduce the harm to low income or minority populations.

If it is concluded that no minority and/or low-income population groups are present in the project area, ECRC will document how the conclusion was reached. If it is determined that one or more of these population groups are present in the area, ECRC will administer a potential disproportionate effects test.

The following steps will be taken to assess the impact of projects on minorities and/or low income population groups:

STEP ONE: Determine if a minority or low-income population is present within the project area. If the conclusion is that no minority and/or low-income population is present within the project area, document how the conclusion was reached. If the conclusion is that there are minority population groups and/or low-income population groups present, proceed to Step Two.

STEP TWO: Determine whether project impacts associated with the identified low income and minority populations are disproportionately high and adverse. In doing so, refer to the list of potential impacts and questions contained in Appendix E. If it is determined that there are disproportionately high and adverse impacts to minority and low-income populations, proceed to Step Three.

STEP THREE: Propose measures that will avoid, minimize and/or mitigate disproportionately high and disproportionately adverse impacts and provide offsetting benefits and opportunities to enhance communities, neighborhoods and individuals affected by proposed project.

STEP FOUR: If after mitigation, enhancements, and offsetting benefits to the affected populations, there remains a high and disproportionate adverse impact to minority or low-income populations, then the following questions must be considered:

Question 1: Are there further mitigation measures that could be employed to avoid or reduce the adverse effect to the minority or low-income population?

Question 2: Are there other additional alternatives to the proposed action that would avoid or reduce the impacts to the low income or minority populations?

Question 3: Considering the overall public interest, is there a substantial need for the project?

Question 4: Will the alternatives that would satisfy the need for the project and have less impact on protected populations (a) have other social economic or environmental impacts that are more severe than those of the proposed action (b) have increased costs of extraordinary magnitude?

STEP FIVE: Include all findings, determinations or demonstrations in the environmental document prepared for the project.

FILING A TITLE VI COMPLAINT

I. Introduction

The Title VI complaint procedures are intended to provide aggrieved persons an avenue to raise complaints of discrimination regarding the ECRC programs, activities, and services as required by statute.

II. Purpose

The purpose of the discrimination complaint procedures is to describe the process used by ECRC for processing complaints of discrimination under Title VI of the Civil Rights Act of 1964 and related statutes.

III. Roles and Responsibilities

The Title VI Coordinator has overall responsibility for the discrimination complaint process and procedures. The Title VI Coordinator may, at his/her discretion, assign a capable person to investigate the complaint.

The designated investigator will conduct an impartial and objective investigation, collect factual information and prepare a fact-finding report based upon information obtained from the investigation.

IV. Filing a Complaint

The complainant shall make himself/herself reasonably available to the designated investigator, to ensure completion of the investigation within the timeframes set forth.

Applicability: The complaint procedures apply to the beneficiaries of ECRC programs, activities, and services, including but not limited to: the public, contractors, sub-contractors, consultants, and other sub-recipients of federal and state funds.

Eligibility: Any person who believes that he/she has been excluded from participation in, denied benefits or services of any program or activity administered by ECRC or its sub-recipients, consultants, and contractors on the basis of race, color, national origin (including Limited English Proficiency), sex, age or disability may bring forth a complaint of discrimination under Title VI.

Time Limitation on Filing Complaints: Title VI complaints may be filed with the Title VI Coordinator's office. In all situations, the employees of ECRC must contact the Title VI Coordinator immediately upon receipt of Title VI related complaints.

Complaints must be filed within 180 days of the alleged discrimination. If the complainant could not reasonably be expected to know that the act was discriminatory within the 180-day period,

he/she will have 60 additional days after becoming aware of the illegal discrimination to file the complaint.

Complaints must be in writing and must be signed by the complainant and/or the complainant's representative. The complaint must set forth as fully as possible the facts and circumstances surrounding the claimed discrimination. In cases where the complainant is unable or incapable of providing a written statement, the complainant will be assisted in converting the verbal complaint into a written complaint. All complaints, however, must be signed by the complainant and/or by the complainant's representative.

APPENDIX E - DETERMINE/DISTINGUISH SIGNIFICANT/NON-SIGNIFICANT EFFECTS

“Significant” requires considerations of both context and intensity:

- (a) *Context.* This means that the significance of an action must be analyzed in several contexts such as society as a whole (human, nation), the affected region, the affected interests, and the locality. Significance varies with the setting of the proposed action. For instance, in the case of a site-specific action, significance would usually depend upon the effects in the local area rather than in the world as a whole. Both short-and long-term effects are relevant.
- (b) *Intensity.* This refers to the severity of impact. Responsible officials must bear in mind that more than one agency may make decisions about partial aspects of a major action. The following should be considered in evaluating intensity:
 - (1) Impacts that may be both beneficial and adverse. A significant effect may exist even if, on balance, the effect would be beneficial.

“Non-significant effect” means no substantial change to an environmental component and this has no material bearing on the decision-making process.

Scientific, technical, institutional, the public’s value, and the local economic conditions influence the meaning of significant effect.

If an alternative would provide a beneficial effect, then the alternative would cause no significant adverse effect. If an alternative would provide an adverse effect, the effect might be significant or the effect might be non-significant.

Determinations of “significant” and “non-significant” effects will be made by the Title VI Coordinator.
